

PA Application | Multizone Paging System (100V Switching Single Amplifier)

Single Amplifier System

One amplifier used for both PA and BGM.
BGM will cease to all zones when any zone is paged.

Note that 100V amplifiers used must be rated to suit the total system load ie: combined wattage of all speakers in all zones.

Max distance for paging consoles from controller is 300 metres.

- Line Level RCA/3.5mm Stereo
- Cat5e UTP Data Cable
- 100V Line Speaker Cable
